

OVERVIEW OF HCPC CONVERSION

Users with the Biller Role can update a HCPC from Off-the-Shelf (OTS) to Custom (CTS) when a patient agreement (PA) is in Ready for Billing status on the Billing Submission page. Submit a MotionMD help ticket to have the HCPC Conversion feature enabled.

Once enabled, the Biller will see the **Custom Fit?** or **Undo Custom Fit?** button in the product section of the PA when a product has an equivalent CST or OTS code.

NOTE: The buttons are visible for claims in Ready for Billing status ONLY.

Once the selection is made, a modal will appear confirming the action. Once the YES button is selected, the HCPC on the patient agreement will show updated.

The screenshot shows the MotionMD Patient Agreements page. A modal window titled "Convert to Custom Fit equivalent?" is displayed, asking if the user wants to convert the product HCPCS L1812 to its Custom Fit equivalent L1810. The "Yes" button is highlighted with a red box and a cursor. The main page shows a list of patient agreements, with one agreement selected. The "Products" section for this agreement shows a "Reaction Knee Brace" with code "11-0215-2 - Knee - (XS/S) - Body Side Right - L1812". Below this, a "Custom Fit?" button is also highlighted with a red box. The right side of the screen shows patient details: ID 114210, MRN 115485, Ready for Billing, Not Submitted, Birthdate 1966-01-03, Email testemail@gmail.com, and Provider Joy Don.
