

ADDING BILLING MODIFIERS

A feature has been designed to allow Billing Modifiers to be added to the Patient Agreement (PA) before submitting the PA. Modifiers can be added to each product on the PA and regardless of the payor. This feature is visible for Admin users or users assigned the 'Billing' role. CMS rules regarding Modifiers can be found in the [General Correct Coding Policies](#) document.

When the Billing Modifier feature is enabled, a button will appear below the product when viewing the PA on the Billing Submission tab labeled Add Billing Modifier(s).

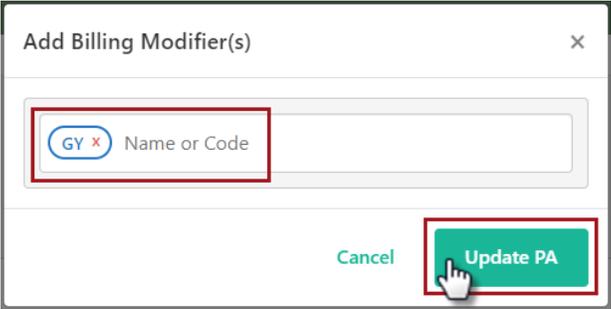

The screenshot shows a Patient Agreement (PA) for Bob Lawblaw. The interface includes a header with patient information (Name: Lawblaw, Bob; Enovis Carlsbad; 09/12/2024 by Cindy Sever) and status (Ready for Billing, 1/1 Not Submitted). The main area is divided into sections: Diagnoses (W55.01XA), Products (Enovis Squared Toe Post-Op Shoe, 79-81232 - Foot - (X-Small) - Body Side Right - L3260), Payment (Medicare (Medicare)), and Signatures (Signed by Self, Bob Lawblaw on 09/12/2024; Signed by Jeremy Cowgirl on 09/12/2024). A red box highlights the 'Add Billing Modifier(s)' button located below the product details.

A modal will open once the button is clicked. Start typing the modifier and a list will appear in the dropdown. Click on the modifier that should be appended to the product.

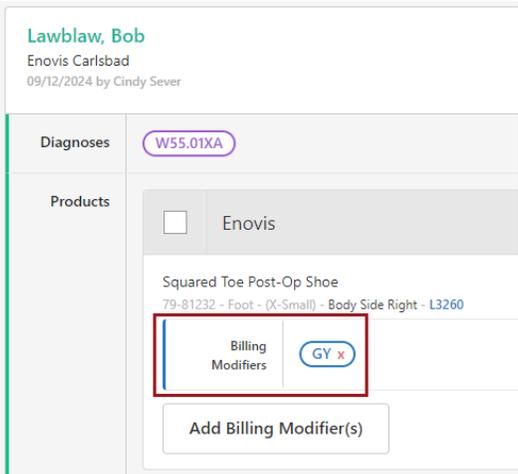

The screenshot shows the 'Add Billing Modifier(s)' modal. A search input field contains 'GY'. A dropdown menu is open, displaying a list of modifiers. The first option is highlighted in green: 'GY ITEM OR SERVICE STATUTORILY EXCLUDED, DOES NOT MEET THE DEFINITION OF ANY MEDICARE BENEFIT OR, FOR NON-MEDICARE INSURERS, IS NOT A CONTRACT BENEFIT'. Below it, other modifiers are listed, including 'K4 LOWER PROSTHESIS FUNCTIONAL LEVEL 4 - HAS THE ABILITY OR POTENTIAL FOR PROSTHETIC AMBULATION THAT EXCEEDS THE BASIC AMBULATION SKILLS, EXHIBITING HIGH IMPACT, STRESS, OR ENERGY LEVELS, TYPICAL OF THE PROSTHETIC DEMANDS OF THE CHILD, ACTIVE ADULT, OR ATHLETE' and 'RE FURNISHED IN FULL COMPLIANCE WITH FDA-MANDATED RISK EVALUATION AND MITIGATION STRATEGY (REMS)'. A hand cursor is pointing at the first option.

ADDING BILLING MODIFIERS

The modifier will be added to the field. It can be removed by clicking the red 'X' or additional modifiers can be searched for and added to the field. Once all modifiers are selected, click the **Update PA** button.

After clicking the Update PA button, the selected modifiers will be visible on the product section. The modifiers can be removed at this stage by clicking the red 'X' next to the modifier and confirming it should be removed.

Modifier(s) will be added to the end of the Product name on the Billing Document PDFs.
